

I respectfully urge the FCC to reject the NAB's petition 04-160!! As an over the road truck driver I am especially grateful for satellite radio. I can actually listen to a program from beginning to end no matter how far I might travel during the program. Also, it is very nice to be able to tune in to weather and traffic information for the area I am in and get instant information. Please, let those of us who pay for this service decide what we wish to listen to.
